Chapter 1

Lavoratti 1938

Mediterranean Chocolate

THE BRAND'S ROOTS

From 1938 to date

The “*Ditta Lavoratti*” company was established in Varazze, on the western coast of Liguria in Italy, in 1938. Filled doughnuts were carried around beaches and sold to beachgoers from a shoulder-strapped wooden box. A few years later, Aliberto Lavoratti opened a shop in the historical centre of town, and the chocolate adventure started. For decades, the Lavoratti brand was a synonym for chocolate for all of Varazze’s children. At Easter, the Lavoratti egg was a must, and when the recent difficulties caused by the pandemic endangered the company’s future, two of those children felt the need to step in and protect it, so that its narrative could continue with new assumptions and new ambitions. In 2020, Davide Petrini and Fabio Fazio acquired the brand and the company, and Lavoratti 1938 now looks forward to a new start.

Fabio Fazio: “I used to spend my holidays at my grandparents’ house in Varazze. At Easter, like I later ensured with my children, there would always be a Lavoratti egg. The scent of chocolate filled the dining room, and for me its still means childhood, spring, vacation.

My involvement in this chocolate adventure is an attempt to go back to my childhood. Chocolate is a powerful time machine: it invests all five senses to create a sixth one – memory. As soon as you utter the word “chocolate”, everyone smiles, because in truth, producing chocolate means producing joy”.

Davide Petrini: “My ties with the sea and with Varazze are very strong. With Fabio we acted on impulse and made a sentimental choice, because this small but significant part of our local heritage, Lavoratti 1938, could not simply cease to be after more than eighty years. Creating work is my pride, and producing chocolate is a wonderful opportunity in order to live a second, sweet life, if I may say...”.

THE COMEBACK

A new challenge

The challenge is to create the best chocolate possible. It is the goal towards which an entire team has worked and continues to work with dedication every day.

We think of chocolate as a carrier of flavors, a medium capable of telling the story of a territory, its seasons, and its raw materials. Lavoratti 1938 is the chocolate of the Mediterranean, and to create it, we always start with a clear idea of taste, balance, and identity.

Each recipe is born from a careful dialogue between technique, intuition, and a deep knowledge of the ingredients, selected based on their origin, quality, and sustainability. Creating also means knowing how to listen:

the rhythm of Nature, the needs of the material, the time necessary to transform it without forcing it.

Our work is a continuous exercise of attention, care, and respect for what the earth offers us.

We believe in an essential yet surprising taste, made of subtle harmonies, precise choices, and details that make a difference. From the selection of raw materials to processing, every step is guided by a philosophy that puts the essence of good things at the center.

Because only from what is authentic can something extraordinary emerge.

THE WORKSHOP

Chocolate and imagination

Since its rebirth Lavoratti 1938 has defined itself as a laboratory, that is, a physical and mental space for experimenting with new ideas, new possibilities for meeting ingredients and, above all, people. It is a place imagined for writing new stories through chocolate because, as we have always said, chocolate has no limits except that of the imagination.

We immediately opened the doors to decidedly prestigious meetings, from Corrado Assenza, to the Parmigiano Reggiano Consortium, to Carlo Cracco, Massimo Bottura, Osteria Gucci and Niko Romito.

Lavoratti was reborn exactly on September 15, 2022, presenting itself to the press, as a guest of Carlo Cracco at his restaurant Il Pitosforo, in Portofino. After only six months, on the occasion of Easter, we announced our collaboration with him for an exceptional egg collection. The recipes developed by four hands with our maître chocolatier resulted in unique and refined flavors.

In December 2024, a new chapter of excellence was added to our journey: the collaboration with three-Michelin-starred chef Niko Romito. The encounter between his gastronomic vision and our chocolate expertise resulted in two unique creations for Christmas: a dark chocolate and fig bar and a pandolce decorated with our chocolate.

After the success of the first collaboration, the creative dialogue with Gucci Osteria by Massimo Bottura continues for Easter 2025. From the meeting between the master chocolatiers of Lavoratti 1938 and the two co-Executive Chefs Karime Lopez and Takahiko Kondo comes a new delicious creation: the Easter egg made with 70% dark chocolate, enriched with raspberries and hibiscus.

The fruity notes of raspberry and the floral notes of hibiscus intertwine in an elegant and persistent balance. The thin chocolate shell encloses a soft heart with the same flavor combination, enhanced by a crunchy note from small biscuit inclusions. After the fragrant blend of Cinque Terre lemon and rosemary in 2024, this new interpretation confirms the shared desire to explore new flavors with creativity, technical precision, and a touch of surprise.

‘This collaboration makes us proud and marks a fundamental step in the growth of Lavoratti 1938, a place that welcomes the talents of the national and international gastronomic scene, giving life to a true creative workshop; thank you therefore to Gucci Osteria, synonymous with Italian excellence all over the world, for having decided to share this wonderful adventure with us,’ says Fabio Fazio.

THE CHOCOLATE

Ecuador Single-origin

Our chocolate comes from Ecuador, one of the world's most vocated lands for growing cocoa, known for its extraordinary quality and rich, complex flavour profile. We use a single origin that enhances the unique characteristics of this noble origin, the result of careful processing that respects the raw material. The cocoa beans are harvested, fermented and dried using traditional techniques handed down

through generations, perfected over time and guided by principles of sustainability and environmental responsibility. Chocolate is the starting point: a precious vector to which we entrust the flavours of the Mediterranean. If our single-origin dark and milk chocolates stand out for their purity and intensity, it is in the fillings that the Lavoratti project finds its deepest expression.

THE INGREDIENTS

Nature is the primary form of art

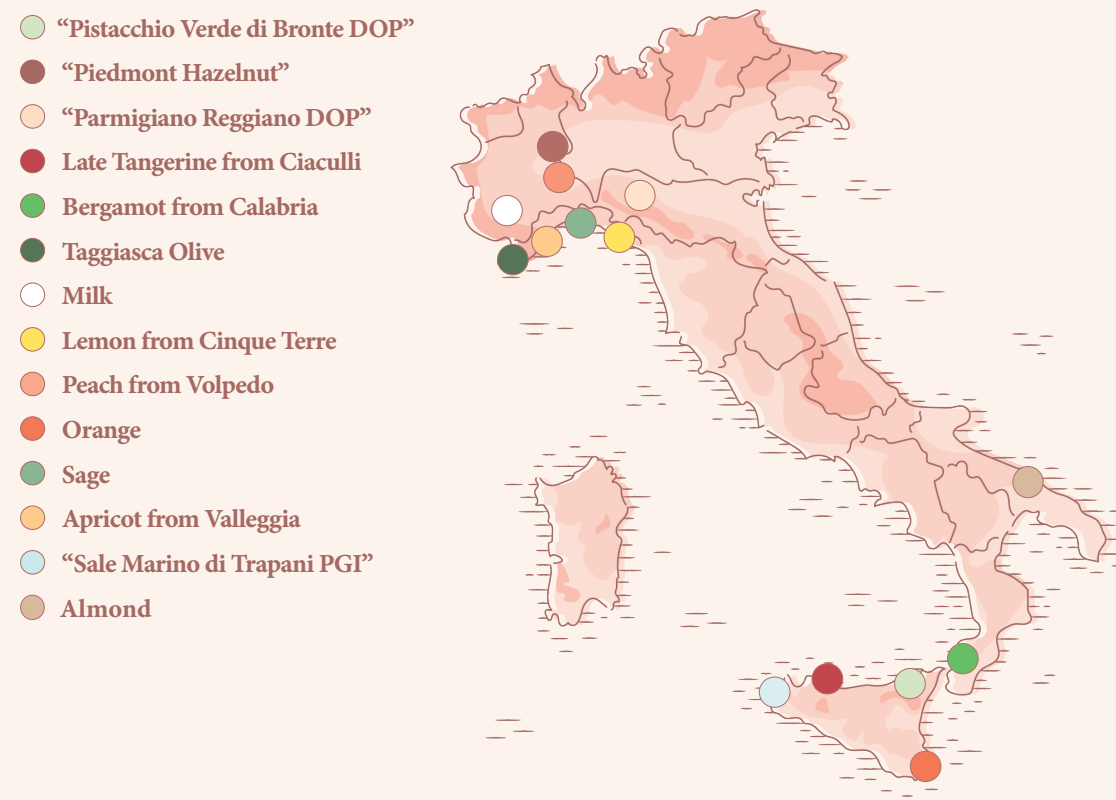

The quality of the ingredients is fundamental to achieving excellence. Lavoratti 1938 selects suppliers and crops that meet the necessary criteria to obtain the best possible product: pistachios, citrus fruits, hazelnuts and even the salt used for bars and chocolates.

Each ingredient is selected with the utmost care, each producer is chosen individually, and only the best products are selected for a truly unique taste experience. Care and rigour are our guidelines.

Fresh fruit arrives at the company filled with the scents of the land of origin. Here, each fruit is selected, washed, carefully peeled and then delicately dried in our workshop. It is a slow and respectful ritual that preserves the

natural flavors, aromas and textures intact, transforming each ingredient into a concentrate of authentic intensity, ready to become part of an unforgettable sensory experience.

Through chocolate, we want to make a real journey through places and ancient knowledge, because, as we know, what we eat is first and foremost the result of history, which has brought people together, which has imported food from one part of the world to another, which has turned what came from afar into tradition. The history of mankind is in the products of the earth. Food is an opportunity to meet, it is the synthesis of what we have been, what we are waiting to build and what we will be through an exciting and continuous search whose only limit is the imagination.

“Pistacchio Verde di Bronte DOP”

In the heart of Sicily, among the rocky landscapes of Mount Etna, comes the Bronte Pistachio, a culinary jewel with a unique and unmistakable taste.

“Piedmont Hazelnut”

From the magnificent landscapes of the Alta Langa comes the Hazelnut. Renowned for its spherical shape, it finds its greatest expression together with chocolate.

“Parmigiano Reggiano DOP”

Expert craftsmanship, thousands of years of experience, and a beloved and protected environment give life to an unsurpassed cheese. Since 1934, the Parmigiano Reggiano consortium supports the art and tradition of one of Italy’s most excellent, signature products.

Late Tangerine from Ciaculli

In the *Conca d’Oro* area, near Palermo in Italy, there grows a precious variety of tangerines: with few seeds and a fine peel, but most of all, sweet and juicy. They are called “late” because they ripen in March, hence the name *marzeddu* (March is *marzo* in Italian).

Bergamot from Calabria

A citrusy, bitter-sour fruit, a delight for the palate, with an unmistakable scent and natural medicine.

Taggiasca Olive

The Taggiasca olive, small and fleshy, is famous for its delicate and harmonious taste, with sweet and slightly bitter notes. It captures the scents of the sea and the land and is cultivated in the hills of Liguria.

Milk

100% from Piedmont, it is processed within hours of milking and obtained from certified, sustainable farms.

Lemon from Cinque Terre

Between Levanto and Monterosso grows a fragrant and intense lemon, with a lively and persistent taste, cultivated on terraces overlooking the sea.

Peach from Volpedo

In Volpedo, in the province of Alessandria in northwest Italy, there grows a very colourful, deliciously-scented and sugary peach. This variety announces the arrival of summer and retains the flavour of “how peaches used to taste”.

Orange

Kissed by the sun and nourished by the lava soil of Etna, this fruit releases a sweet, velvety and aromatic flavour with fresh floral notes.

Sage

With its velvety, silvery green leaves and intense fragrance, it has always been a symbol of wisdom and purification. Its enveloping aroma carries the warmth of the earth and the ancient wisdom of Mediterranean traditions.

Apricot from Valleggia

On the western Ligurian coast, between Loano and Varazze, farmers grow the *Valleggia* (or *valleggine*) apricots. Small in size, their peel is thin and speckled and their flavour is intense and unique.

“Sale Marino di Trapani PGI”

A group of entrepreneurs from Trapani is focussed on optimising the farming and harvesting of salt without interfering with the natural ecosystem. The result? *Trapani Sea Salt PGI*.

Almond

Crunchy and delicate, almonds have a sweet, slightly buttery taste with soft undertones that enhance their natural elegance, typical of the fruits of the sun and the rich soils of the Mediterranean.

AN EDITORIAL LINE

A factory of ideas

Lavoratti's entire production is conceived as an "editorial line", where every product is a Chapter in its story.

The packaging of our bars brings to mind a book cover, and we even created a box to hold the first eight products.

Our catalogue also offers monographic, themed bonbon boxes. In this manner, the flavours are complementary and connected just like the pages of a book. These are the Lavoratti Books. The first launch was "Christmas Lunch".

Similarly, we have a box that closely resembles colourful boxes of pencils. "Matite Lavoratti 1938" holds a range of filled chocolates with no less than 12 flavours.

Our factory is not merely a physical place, but in fact, it is more of a mental state.

The one that demands ongoing research for us to obtain the best results possible. Our products stem from countless trials aimed at reaching a balance in flavour through a careful gauging of ingredients and a detailed control over drying processes. Not only the careful gauging of ingredients, but also detailed control over drying processes is fundamental.

Technical expertise, knowledge but most of all, dedication, passion and enthusiasm are mandatory.

Our quirk – bars and bonbons follow the *golden ratio* rule. 1.618 is the ratio between sides, a symbolic sign of perfection, that divine ratio dedicated to chocolate, which the central-American people considered the food of Gods. According to this progression, Nature conceived the Nautilus, which has become the symbol and icon of Lavoratti 1938.

[Golden Ratio] The golden ratio or extreme and mean ratio or divine proportion, in art and mathematics, represents the irrational number obtained from the ratio between two different lengths. In the Renaissance, the golden ratio was considered as a symbol of aesthetic perfection to be used in architecture and art.

The total segment c is proportional to the longer segment b as the latter is to the shorter segment a .
 $a : b = b : c = \text{phi } \varphi$

Absence is the road to Essence.

OUR PRODUCTS

The power of creativity

Our labels are short. Few ingredients mean wholesomeness and authenticity. It is what makes us proudest. We work by reduction to reach the essence of flavour, and we don't use food colourings. Packages are fully recyclable and without plastics.

BARS

80 grams

Bars, conceived with the golden ratio, are the core of Lavoratti 1938's editorial offer. Their packaging brings to mind a book

cover, because every single filled bar aspires to be a Chapter in the story of our journey to discover the flavours of the Mediterranean.

SPECIAL EDITIONS

Tradition and terroir

For festivities, Lavoratti 1938 offers special editions of its products. Celebrating an important local tradition, Lavoratti relied on Tullio Mazzotti – great grandchild of Tullio di Albisola, inventor of Futurist ceramics and seminal 20th century artist – for the production of a limited edition of ceramic containers for our products. Clay is the oldest material humans have been shaping. It holds something magic and even religious. According to the Old Testament, Adam and Eve drew life from clay. Clay requires manual work for shaping. It is fragile and requires extreme care for its realisation.

Each piece is the outcome of ingenuity, ability and talent, and pottery from Albisola, steps away from Varazze, has always meant quality and originality.

The collaboration between Lavoratti and Tullio Mazzotti is aimed at enhancing artisanal work and at the same time giving a signature character to our product offering.

SPECIAL EDITIONS

The Futurist Sphere

The futurist sphere is a real surprise imagined by Lavoratti 1938 in collaboration with Tullio Mazzotti of the Albisola ceramic factory of the same name. Inspired by the futurist pottery invented by Tullio d'Albisola in the third decade of the twentieth century, the sphere is based on Torido Mazzotti's planet vase and motor vases and is a precious limited edition art object signed by Tullio Mazzotti. It contains our chocolate spheres,

and which from this year will be part of the Lavoratti classics. The sphere, made of dark Ecuador Single-origen chocolate, blends together with Oranges from the Valley of the Temples in Agrigento, which are born and grow in a historic citrus grove, an extraordinary place that encompasses the flavors and scents of Sicily.

A WORD OF HOPE

Rediscovering time and choice

If today's password is consumption, our hope is that of replacing it with choice. We aspire to be chosen and to share the pleasure of our chocolate and our work with whoever comes across us.

The time factor is crucial to us, but not how everyone would think. If anything, the opposite – not being pressed for time, but taking the time needed to choose.

The shops that will choose to hold Lavoratti 1938 must offer the possibility of giving patrons time. Since our products aspire to be a narrative, it is important for clients to take part in it and to be able to know the story behind it.

We do not target consumers, but people with whom there can be dialogue and a long-lasting relationship.

Small shops or prestigious boutiques – it makes no difference. We would like to think that the places where you can find our products have an authentic, recognisable soul, and share our level of care in everything we do and who we are.

We would like to remember a quote by Tommaso Landolfi,
an ingenious and refined writer of the 20th century
who spoke thus of chocolate:

“I have learned to recognise the only two remedies against pain,
sadness and similar woes and wounds of the human heart:
chocolate and time”.

Quite a responsibility...
